ONE-HUNDRED-TWELFTH ANNUAL REPORT  
NORTH CAROLINA BOARD OF PHARMACY

October 1, 1992 - September 30, 1993

MEMBERS AND ORGANIZATION

---

COMMISSIONED BY HIS EXCELLENCY THE GOVERNOR OF NORTH CAROLINA

---

W.W. Moose, Mt. Pleasant, President.....Term Expires April 30, 1995  
A.F. Lockamy, Jr., Raleigh, Vice President....Term Expires April 30, 1995  
W.T. Biggers, Asheville.....Term Expires April 30, 1995  
W.H. Randall, Jr., Lillington.....Term Expires April 30, 1996  
J.G. Watts, Burlington.....Term Expires April 30, 1997  
H.V. Day, Spruce Pine.....Term Expires April 30, 1997

Executive Director  
David R. Work, Chapel Hill

General Counsel  
Carson Carmichael, Raleigh

Inspectors  
Bobby R. Belvin, Raleigh  
Steve W. Hudson, Hickory  
Terri K. Mayo, Raleigh  
J. Ken Wilkins, Walnut Cove

---

Carrboro, North Carolina  
June 30, 1994

To His Excellency  
Governor James B. Hunt  
Raleigh, North Carolina

Dear Sir:

In compliance with Article 4, Section 90-57 of the General Statutes of North Carolina, we are pleased to submit to you and to the North Carolina Pharmaceutical Association the One-Hundred-Twelfth Annual Report of the North Carolina Board of Pharmacy. This report contains the proceedings of the Board of the fiscal year ending September 30, 1993.

Respectfully yours,

NORTH CAROLINA BOARD OF PHARMACY  
David R. Work, Executive Director

94  
29  
AN 8  
1993

Fiscal year 1992-1993 included the Board's serious consideration of several substantial topics. This was the first year that the Board's Rule on Patient Counseling was proposed and Members considered the volatile issue of technicians checking technicians. A number of important rules were adopted and a medication error task force issued a report on the results of the Board's Rule on the reporting of deaths. The General Assembly also adopted a change in statute which provided for the Board to register Out-Of-State pharmacies.

The November 1992 meeting included an open hearing on proposed rules on patient counseling. Many points of view were heard and a rule was adopted, effective January 4, 1993. A copy of the rule follows. The Executive Director commented that this rule will cause the largest single change in pharmacy practice in his lifetime and was certainly a momentous event.

#### **.2504 PATIENT COUNSELING**

(a) "Patient Counseling" shall mean the effective communication of information, as defined in this Rule, to the patient or representative in order to improve therapeutic outcomes by maximizing proper use of prescription medications and devices. This Rule shall apply to pharmacists and to registrants under G.S. 90-85.21. Specific areas of patient counseling include, but are not limited to, those matters listed in this Rule that in the exercise of the pharmacist's or registrant's professional judgment are considered significant:

- (1) name, description, and purpose of the medication;
- (2) route, dosage, administration, and continuity of therapy;
- (3) special directions for use by the patient;
- (4) common severe side or adverse effects or interactions and therapeutic contraindications that may be encountered, including their avoidance, and the action required if they occur;
- (5) techniques for self-monitoring drug therapy;
- (6) proper storage;
- (7) prescription refill information; and
- (8) action to be taken in the event of a missed dose.

(b) An offer to counsel shall be made on new or transfer prescriptions at the time the prescription is dispensed or delivered to the patient or representative. Ancillary personnel may make the offer to counsel, but the pharmacist or registrant must personally conduct counseling if the offer is accepted. The offer shall be made orally and in person, whenever practicable, or through access to a telephone service that is toll-free for long-distance calls. A pharmacist or registrant whose primary patient population is accessible through a local measured or toll-free exchange need not be required to offer toll-free service. Professional judgment shall be exercised in determining whether or not to offer counseling for prescription refills. An offer to counsel shall be communicated in a positive manner to encourage acceptance.

(c) In order to counsel patients effectively, a reasonable effort shall be made to obtain, record, and maintain, if significant, patient information, including, but not limited to:

- (1) name, address, telephone number;
- (2) date of birth (age), gender;
- (3) medical history:
  - (A) disease state(s),
  - (B) allergies/drug reactions,
  - (C) current list of non-prescription and prescription medications and devices.

- (4) pharmacist or registrant comments relevant to the individual's drug therapy. A "reasonable effort" shall mean a good faith effort to obtain from the patient or representative the foregoing patient information. Ancillary personnel may collect, record, and obtain patient profile information, but the pharmacist or registrant must review and interpret patient profile information and clarify confusing or conflicting information. Professional judgment shall be exercised as to whether and when individual patient history information should be sought from other health care providers.
- (d) Once patient information is obtained, this information shall be reviewed and updated by the pharmacist or registrant before each prescription is filled or delivered, typically at the point-of-sale or point of distribution to screen for potential drug therapy problems due to:
- (1) therapeutic duplication;
  - (2) drug-disease contraindication;
  - (3) drug-drug interactions, including serious interactions with prescription or over-the-counter drugs;
  - (4) incorrect drug dosage or duration of drug treatment;
  - (5) drug-allergy interactions; and
  - (6) clinical abuse/misuse.
- (e) Unless refused by the patient or representative, patient counseling shall be provided as follows:
- (1) counseling shall be "face to face" by the pharmacist or registrant when possible or appropriate. If this is not possible, a reasonable effort shall be made to counsel the patient or representative;
  - (2) alternative forms of patient information may be used to supplement patient counseling;
  - (3) patient counseling, as described in this Rule, shall also be required for outpatient and discharge patients of hospitals, health maintenance organizations, health departments, and other institutions; however, compliance with this Rule in locations in which non-pharmacists are authorized by law or regulation to dispense may be accomplished by such authorized non-pharmacists; and
  - (4) patient counseling, as described in this Rule, shall not be required for inpatients of hospitals or other institutions where a nurse or other licensed health care professional administers the medication(s).
- (f) Pharmacies that distribute prescription medication by mail, and where the practitioner-pharmacist-patient relationship does not exist, shall provide counseling services for recipients of such medication in accordance with this Rule.
- (g) Records resulting from compliance with this Rule, including documentation of refusals to receive counseling, shall be maintained for three years in accordance with Section .2300 of this Chapter.

*History Note: Statutory Authority G.S. 90-85.6; 90-85.21; 90-85.32; 42 U.S.C. 1396r-8(g); Eff. January 4, 1993.*

As a direct result of the discussions following this rule the Members of the Board individually approached Burroughs Wellcome in an attempt to obtain a public service announcement for use on radio and television. The result was a thirty second video and audio version of a public service announcement which was provided free of charge with no credit to Burroughs Wellcome. The task began in the middle of November and the final product was finished prior to Christmas, a record setting time for such activity. Board staff sent out 34 tapes to television stations in North Carolina and over 290 audio tapes to radio stations to meet their public service needs.

In January of this year the Members seriously considered a proposal from a group of hospital pharmacists to take steps to recognize the practice of technicians checking technicians. This issue proved to be controversial as some pharmacists felt that it was not in the best interest of the public health and safety to delete a pharmacist from this procedure. A rule was proposed on this subject at the January meeting and it was rejected by the Board at the July meeting.

The Members were informed at the January meeting that the North Carolina Association of Medical Equipment Suppliers desired to obtain registration with the Board with a fee to pay for a compliance investigator. The Members adopted a motion which agreed in principle with the proposed legislation and directed counsel and staff to work further on the issue with the General Assembly in Raleigh.

At its March meeting the Members reviewed the clerkship program of Campbell University as presented by Dean Ron Maddox and Dr. Connie McKenzie. As of that date their record was exemplary in that every student that has taken a state board of pharmacy exam has passed. Dean Maddox also reviewed their curriculum which includes first year students, "shadowing" a 4th year student to gain a better understanding of what is eventually expected. The March meeting also was the occasion for the first disciplinary action based on the Board's rule on reporting of deaths. The case involved a terminal cancer patient who received an overdose of morphine due to a prescription error. It was the Board Members decision to issue a reprimand for the pharmacist.

The April meeting of the Board was normal in every respect except that the Members directed that three resolutions be sent to the National Association of Boards of Pharmacy for their consideration. These resolutions are reproduced and this narrative.

WHEREAS prescription drugs are, by definition, not safe for use without supervision, and

WHEREAS a trend is occurring to move prescription drugs such as Seldane and Cimetidine that have numerous and serious potential interaction to other drugs to otc status, and

WHEREAS a substantial number of drugs are being considered for such a change, and

WHEREAS this process could be dangerous without proper regulatory oversight;

THEREFORE BE IT RESOLVED THAT

NABP supports the creation of a third class of drugs for such products to be dispensed only by pharmacists in order to protect the public health and safety.

-----  
WHEREAS research consistently shows that a substantial portion of the American public is functionally illiterate, and

WHEREAS drugs are only approved by the FDA for use in the dose and for the conditions specified in product labeling, and

WHEREAS graphics have been demonstrated in the Indian Health Service and other areas to be effective communicators of directions for drug use;

THEREFORE BE IT RESOLVED THAT

NABP requests that FDA initiate research in collaboration with other appropriate groups such as the USP, the Pharmaceutical Manufacturers Association and the Non-Prescription Drug Manufacturers Association to establish a standard set of signs or symbols to convey common directions and cautionary statements on drugs to better protect the public health and safety.

---

WHEREAS there are a substantial number of products claimed to be foods that have the effects of drugs, and

WHEREAS these products have not necessarily met the same standards as drug products, and

WHEREAS there is an obvious issue of safety involved;

THEREFORE BE IT RESOLVED THAT

NABP urges FDA to apply the same standards to products promoted to have the effects of drugs as they use in evaluating drugs for labeling, safety and efficacy.

In May the Members authorized proceeding with the medication error task force which had been suggested at the public hearing adopting the rule. A task force was convened and a report was made to the pharmacists of the state in the Board's Newsletter and a copy of the pertinent part follows below.

#### Item 766 - Task Force Reports Results

For reasons that are well-known and not necessary to repeat here, the Board adopted a rule about two years ago requiring the reporting of deaths due to drugs dispensed through pharmacies. At that time, both the president of the North Carolina Pharmaceutical Association (NCPHA) and the North Carolina Society of Hospital Pharmacists (NCSHP) called for the formation of a task force to examine the results of this reporting rule after it had been in effect for a reasonable period of time.

After the rule was in effect for one year, the Board appointed a task force co-chaired by Bill Randall from the Board of Pharmacy and Cindy Bishop from NCSHP. Other members of the task force are Al Locakmy, Steve Dedrick, Wesley Byerly, Robert L. Crocker, Amy Brown, and Tom Thutt.

At the task force's first meeting on July 30, 1993, the members analyzed the results of the first reporting year from March 1, 1992 through February 28, 1993. The task force requested that an article concerning this topic be included in this Newsletter.

It is significant that of the 15 reported deaths, only one instance resulted in a hearing for a pharmacist before the Board. The message is that the reporting of a death due to a drug should not be considered a confession of wrong-doing by the pharmacist. In the majority of cases, no Board action could be justified against a pharmacist.

Several matters are of concern to the task force. Some of the 15 deaths reported during the year were due to devices. Others were deemed by Board staff not to be directly attributable to drugs, although drugs may have been a factor in the overall result. There were 10 clear-cut instances in which drugs dispensed through pharmacies actually caused deaths during this 12-month period. At least three and perhaps five of these deaths could have been prevented with patient counseling.

One surprising fact derived from this data is that over one-half of the reported cases came from the community or retail setting. This is information that the Board did not anticipate and came as a complete surprise. This figure is somewhat alarming since deaths involving retail pharmacies would naturally go unreported due to an absence of close and controlled contact with the patient.

It is worthwhile to note that some drugs deserve special scrutiny in this area. It was surprising that three of the 10 deaths reported for this time period were due, in one form or another, to procainamide. One was oral, the others intravenous, but the appearance of this compound in three out of ten deaths was certainly unexpected.

As part of the Board's overall effort during the first year, inspectors investigated deaths reported through the State Office of the Chief Medical Examiner. That office reports that each year about 100 deaths are due to therapeutic agents, which are often used for suicidal deaths. The top three drugs in this regard are imipramine, amitriptyline, and propoxephene napsylate. These three drugs account for the bulk of deaths that are due to drugs and deemed to be self-inflicted.

One other matter deserves comment. Several instances have been reported during this first year, primarily in institutions, in which a drug was ordered intravenously at a specific strength and flow rate, and an error was made either in the strength or flow rate of a drug administered IV via infusion device. Whenever changes in drug concentration or IV flow rate occur, the potential exists for errors, and that has occurred causing deaths this year. This situation deserves the special attention of pharmacists and other personnel in hospitals, nursing homes, or other sites where intravenous fluids are commonly used.

The task force will meet regularly to determine if any trends or changes in pharmacy practice are warranted, such as counseling patients or asking patients about blood work if they are taking procainamide.

The July meeting of the Board was largely occupied with consideration of proposed rules. Changes were made and several new rules adopted which affected 21NCAC 46.1317, .1503(c), .1605, .1802(b), .1809, .2201. Each of the new sections follows this narrative.

#### .1317 DEFINITIONS

The definitions of various terms used in these Rules are found in G.S. 90, Article 4A, and as follows:

- (1) Approved School or College of Pharmacy. A school or college of pharmacy accredited by the American Council on Pharmaceutical Education, or a foreign school with a professional pharmacy degree program of at least five years approved by the Board.
- (2) Auxiliary Drug Inventory. A secure, segregated, supplementary source for drugs to be used solely for the purpose of providing adequate drug availability when the pharmacy is closed or the pharmacist is unavailable.
- (3) Board. As defined in G.S. 90-85.3(b).
- (4) Emergency Drugs. Those drugs whose prompt use and immediate availability are generally regarded by physicians as essential in the proper treatment of unforeseen adverse changes in a patient's health or well-being.
- (5) Executive Director. The Secretary-Treasurer and Executive Director of the Board.
- (6) Graduate of an Approved School or College of Pharmacy. A person who has received an undergraduate professional degree in pharmacy from an approved school or college of pharmacy, or a person who has graduated from a foreign professional school of pharmacy and has successfully completed the Foreign Pharmacy Graduate Equivalency Examination offered by the National Association of Boards of Pharmacy and the Test of English as a Foreign Language.
- (7) Indulgence in the Use of Drugs. The use of narcotic drugs or other drugs affecting the central nervous system or the use of intoxicating beverages to an extent as to deprive the user of reasonable self-control or the ability to exercise such judgment as might reasonably be expected of an average prudent person.

## .1317 DEFINITIONS

- (8) Institutional Pharmacy. A pharmacy maintained in a hospital, clinic, nursing home, rest home, sanatorium, non-federal governmental institution, industrial health facility, or other like health service under the supervision of a pharmacist; or the central area in a hospital, clinic, or other health care facility where drugs are procured, stored, processed, or issued, or where pharmaceutical services are performed.
- (9) Limited Service Pharmacy Permit. A pharmacy permit issued by the Board to an applicant that wishes to render in an institutional setting pharmaceutical services not limited to scope and kind but to time and conditions under which such services are rendered.
- (10) Pharmacist. Any person within the definition set forth in G.S. 90-85.3(p), including any druggist.
- (11) Pharmacist-Manager. The person who accepts responsibility for the operation of a pharmacy in conformance with all statutes and regulations pertinent to the practice of pharmacy and distribution of drugs by signing the permit application, its renewal or addenda thereto.
- (12) Pharmacy. Any place within the definition set forth in G.S. 90-85.3(q), including any apothecary or drugstore.
- (13) Pharmacy Intern. Any person who is duly registered with the Board under the internship program of the Board to acquire pharmacy experience or enrolled in approved academic internship programs. A pharmacy intern working under a pharmacist preceptor or supervising pharmacist may, while under supervision, perform all acts constituting the practice of pharmacy.
- (14) President. The President of the Board.
- (15) Two Years College Work. Attendance at a college accredited by a recognized accreditation agency for two academic years of not less than eight and one-half months each and the completion of work for credit leading to a baccalaureate degree or its equivalent and that would permit the student to advance to the next class.
- (16) Undergraduate Professional Degree in Pharmacy. A B.S. or Pharm. D. degree.
- (17) Vice-President. The Vice-President of the Board.

*History Note: Statutory Authority G.S. 90-85.3; 90-85.6; 90-85.8; 90-85.13; 90-85.14; 90-85.15; 90-85.21; 90-85.38; 90-85.40;*  
*Eff. May 1, 1989;*  
*Amended Eff. September 1, 1993; October 1, 1990; January 1, 1990.*

## .1503 EXPERIENCE IN PHARMACY

(c) The pharmacist intern, or student, and the pharmacist preceptor, or supervising pharmacist, shall at all times comply with the Board's rules and the laws governing the practice of pharmacy and the distribution of drugs. Failure of the pharmacist intern to do so is grounds to disqualify the period of experience from counting toward the minimum requirements. A pharmacist preceptor who causes or permits a pharmacist intern to violate the Board's rules or the laws governing the practice of pharmacy and the distribution of drugs forfeits his right to supervise such experience for a period of time determined by the Board. A pharmacist who has been found in violation by the Board or pled guilty or no contest or been found guilty by a court of competent jurisdiction of a violation of laws, rules, or regulations governing the practice of pharmacy and the distribution of drugs cannot serve as a preceptor without approval by the Board.

*History Note: Statutory Authority G.S. 90-85.6; 90-85.14; 90-85.15; 90-85.38;*  
*Eff. April 1, 1983;*  
*Amended Eff. September 1, 1993; April 1, 1992; October 1, 1990; May 1, 1989.*

#### **.1605 CHARGE FOR VERIFICATION FOR REINSTATEMENT**

The Board shall charge persons requesting verification for reinstatement of a pharmacy license or permit a fee of fifteen dollars (\$15.00) per verification.

*History Note: Statutory Authority G.S. 90-85.6; 90-85.17; 90-85.21; 150B-19(5)(e);  
Eff. September 1, 1993.*

#### **.1802 PRESCRIPTION REFILLS**

(b) If deemed appropriate in the pharmacist's professional judgment, a patient may receive upon request drug quantities in excess of the face amount of a prescription for a non-controlled substance, up to the total amount authorized. The pharmacist shall not dispense in excess of the face amount of a prescription for a controlled substance or psychotherapeutic drug without authorization from the prescriber.

*History Note: Statutory Authority G.S. 90-85.6; 90-85.32;  
Eff. April 1, 1983;  
Amended Eff. September 1, 1993; May 1, 1989.*

#### **.1809 EMERGENCY PRESCRIPTION REFILLS**

In the event a pharmacist receives a request for a prescription refill and the pharmacist is unable to obtain readily refill authorization from the prescriber, the pharmacist may dispense a one-time emergency refill of up to a 72-hour supply of the prescribed medication, provided that:

- (1) The prescription is not for a Schedule II controlled substance;
- (2) The medication is essential to the maintenance of life or to the continuation of therapy in a chronic condition;
- (3) In the pharmacist's professional judgment, the interruption of therapy might reasonably produce undesirable health consequences;
- (4) The dispensing pharmacist creates a written order containing all of the prescription information required by Section .2300 of these Rules and signs that order;
- (5) The dispensing pharmacist notifies the prescriber or the prescriber's office of the emergency dispensing within 72 hours after such dispensing.

*History Note: Statutory Authority G.S. 90-85.6; 90-85.32;  
Eff. September 1, 1993.*

#### **.2201 HOURS: RECORDS: PROVIDERS: CORRESPONDENCE: RECIPROCITY**

(a) As a condition of license renewal, each practicing pharmacist holding an active license shall report on renewal forms the hours of continuing education obtained during the preceding year. Annual accumulation of ten hours is considered satisfactory to meet the quantitative requirement of this Rule.

(b) All records, reports of accredited hours and certificates of credit shall be kept at the pharmacist's regular place of practice for verification by inspectors during regular or other visits. The Board reserves the right to require submission of such documentation on a random basis. Pharmacists who do not practice regularly at one location shall produce such records within 24 hours of a request from Board authorized personnel. All records of hours and certificates of credit shall be preserved for at least three years.

(c) All continuing education shall be obtained from a provider approved by the Board. In order to receive credit, continuing education courses should have the purpose of increasing the participant's professional competence and proficiency as a pharmacist. At least five hours of the continuing education credits must be obtained through contact programs in any calendar year. Contact programs are those programs in which there is an opportunity for live two-way communication between the presenter and attendee.

(d) Continuing education shall not serve as a barrier to reciprocity; however all licensees by reciprocity must observe the continuing education standards specified in (a), (b) and (c) of this Rule within the first renewal period after licensure in this state.

*History Note: Statutory Authority G.S. 90-85.6; 90-85.17; 90-85.18;  
Eff. January 1, 1985;  
Amended Eff. September 1, 1993; May 1, 1989.*

In August the Members learned that the General Assembly had adopted a change in statute which provided for the registration of Out-Of-State pharmacies. This is the first jurisdiction that the North Carolina Board has had over mail service pharmacy from outside the state. Counsel was instructed to draft rules on this subject and present them back to the Board at an early date.

Information Required by 93B

The North Carolina Board of Pharmacy had its offices at 602H Jones Ferry Road in the Willow Creek Shopping Center for the period of October 1, 1992 through September 30, 1993. During the 1992-93 fiscal year there were 297 applicants for examination, not any candidates were refused admission to the exam while 8 withdrew or did not qualify and the remainder took the examination for licensure. A total of 280 persons were licensed as pharmacists by examination during this year while 190 individuals applied for licensure by reciprocity and were licensed. The Board suspended 13 licenses during this year and revoked 6 licenses. No other licenses were terminated for any reason other than failure to pay the required fee.

## INDEPENDENT AUDITOR'S REPORT

To the Members of the Board  
North Carolina Board of Pharmacy  
Carrboro, North Carolina

We have audited the accompanying balance sheet of the North Carolina Board of Pharmacy as of September 30, 1993, and the related statement of revenues, expenditures and changes in fund balances for the year then ended. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the North Carolina Board of Pharmacy as of September 30, 1993, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

NORTH CAROLINA BOARD OF PHARMACY

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Operations and Significant Accounting Policies

Nature of operations:

The Board was created by the North Carolina General Assembly for the purpose of establishing and maintaining the minimum standards for the practice of pharmacy within the State of North Carolina.

A summary of the Board's significant accounting policies follows:

Basis of accounting:

The accounting policies and practices of the Board's Operating Fund conform to generally accepted accounting principles for Special Revenue Funds.

The modified accrual basis of accounting is used by the Board. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures are recorded when the liability is incurred.

Cash and cash equivalents:

Cash and cash equivalents consist of checking accounts, savings accounts and money market accounts.

Investments:

Investments consist entirely of certificates of deposits purchased with maturities greater than three months.

Property and equipment:

Property and equipment is stated at cost and is accounted for in a separate fund. Depreciation is provided using the straight-line method over estimated useful lives of five to ten years.

Property and equipment purchases are made in the Operating Fund. These assets are subsequently transferred to and depreciated in the Property and Equipment Fund.

Income taxes:

No provision is made for income taxes because the Board is exempt from state and federal income taxes.

NOTES TO FINANCIAL STATEMENTS

Note 2. Leased Office Space

The Board entered into a three-year agreement on February 11, 1989, for the lease of office space. The lease term was from March 1, 1989 to February 28, 1992, requiring a monthly payment of \$2,100. The Board renewed the lease for an additional two years on September 27, 1991. The monthly payment for the period March 1, 1992 to February 28, 1994 is \$2,268.

The Board leased additional square footage at the same location in 1991 and entered into a three-year agreement on September 27, 1991 for additional office space. The lease, which runs from November 1, 1991 to February 28, 1994, requires a monthly expenditure of \$472 for the duration of the agreement.

Future minimum lease payments:

Year Ending  
September 30,

1994

\$ 13,700

Note 3. Retirement Plans

Teachers' and State Employees' Retirement System of North Carolina

All permanent full-time employees of the Board employed prior to July 1, 1983 participate in the statewide Teachers' and State Employees' Retirement System (System), a cost-sharing multiple-employer public employee defined benefit pension plan. The Board's payroll for employees covered by the System for the year ended September 30, 1993 was \$238,084; the Board's total payroll was \$379,085.

After five years of creditable service, employees qualify for a vested deferred benefit. Employees may retire with unreduced retirement benefits under the following conditions:

- 1) complete 30 years of creditable service, or
- 2) reach age 65 and complete five years of creditable service, or
- 3) reach age 60 and complete 25 years of creditable service.

## NOTES TO FINANCIAL STATEMENTS

Employees retiring under any of these conditions are entitled to annual retirement benefits equal to 1.70% of their average final compensation times their years of creditable service. Average final compensation is the average of an employee's salary during the employee's four highest paid years in a row. Also, the system provides death and disability benefits to its participants.

Employees may retire with reduced retirement benefits under the following conditions:

- 1) reach age 50 and complete 20 years of creditable service, or
- 2) reach age 60 and complete 5 years of creditable service.

Covered employees are required by State statute to contribute 6 percent of their salary to the System. The Board is required by the same statute to contribute the remaining amounts necessary to pay benefits when due. The contribution requirement actuarially determined for the year ended September 30, 1993 was \$40,324, which consisted of \$26,039 from the Board and \$14,285 from employees; these contributions represented 10.9% and 6.0% of covered payroll, respectively. All required contributions have been made by the Board.

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to help users assess the System's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among public employee retirement systems and employers. The System does not make separate measurements of assets and pension benefits obligations for individual employers. The pension benefit obligation for the System as a whole at December 31, 1992, the date of the latest available actuarial valuation, was \$16,502,439,000. The System's net assets available for benefits on that date (at cost value) were \$17,039,908,000, leaving net assets in excess of pension benefit obligation of \$537,469,000. The Board's 1993 contribution represented less than one-tenth of one percent of total contributions required of all participating entities.

Ten-year historical trend information showing the System's revenues by source and expenses by types will be presented in the State of North Carolina's June 30, 1993 Comprehensive Annual Financial Report (CAFR). The State's CAFR will also begin to present prospective trend information showing the System's progress in accumulating sufficient assets to pay benefits when due.

## NOTES TO FINANCIAL STATEMENTS

### North Carolina Licensing Boards Retirement Savings Plan:

All permanent full-time employees of the Board employed after July 1, 1983 participate in the North Carolina licensing Boards Retirement Savings Plan, a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate from the date of employment. The Board will match an employee's contribution up to 6% of an employee's gross pay. The Board's contributions for each employee (and interest allocated to the employee's account) are fully vested after five years of service. Board contributions for, and interest forfeited by employees who leave employment before five years of service are used to reduce the Board's current-period contribution requirement.

The Board's contributions were calculated using covered payroll of \$127,291. Both the Board and the employees made the 6% contribution, amounting to \$7,609 from each source or \$15,218 in total.

### Note 4. Comparative Amounts

The amounts shown for 1992 in the accompanying financial statements are included to provide a basis for comparison with 1993 and are not intended to present all information necessary for a fair presentation of 1992 information in accordance with generally accepted accounting principles.

NORTH CAROLINA BOARD OF PHARMACY

CENSUS OF LICENSED PHARMACISTS AND PHARMACIES

PHARMACISTS

Total number of pharmacists licensed and on roster September 30, 1993...	7,363
Total number of pharmacists residing in North Carolina.....	5,889
Inactive (in state).....	381
